

CHAPTER 1

EXPLOR THE NETWORK

JARINGAN KOMPUTER (MUT-14)

Hadi, S.Kom,M.Kom

How **deep** your **knowledge?**

Pretes 8 M-net

Brainstorming

Computer Network

How computer network
makes accomplishing
work easy and satisfying

WHAT is computer network?

WHY computer network is needed?

WHO need computer network?

WHERE computer network is applied?

WHEN computer network is used?

HOW to use computer network?

Computer **Network** Components

Main components of computer network (CCNA, 2022)

COMPUTER NETWORK DEVICES

Hardware devices that are used to connect computers or other electronic devices to a network.

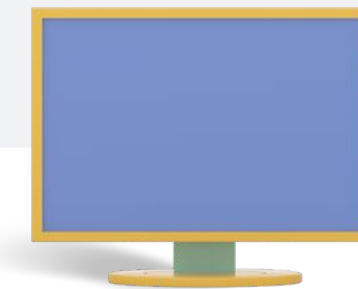

- End devices (host)
- Intermediary devices

COMPUTER NETWORK MEDIA

The medium which provides channel communication between source and destination.

- Wired media
- Wireless media

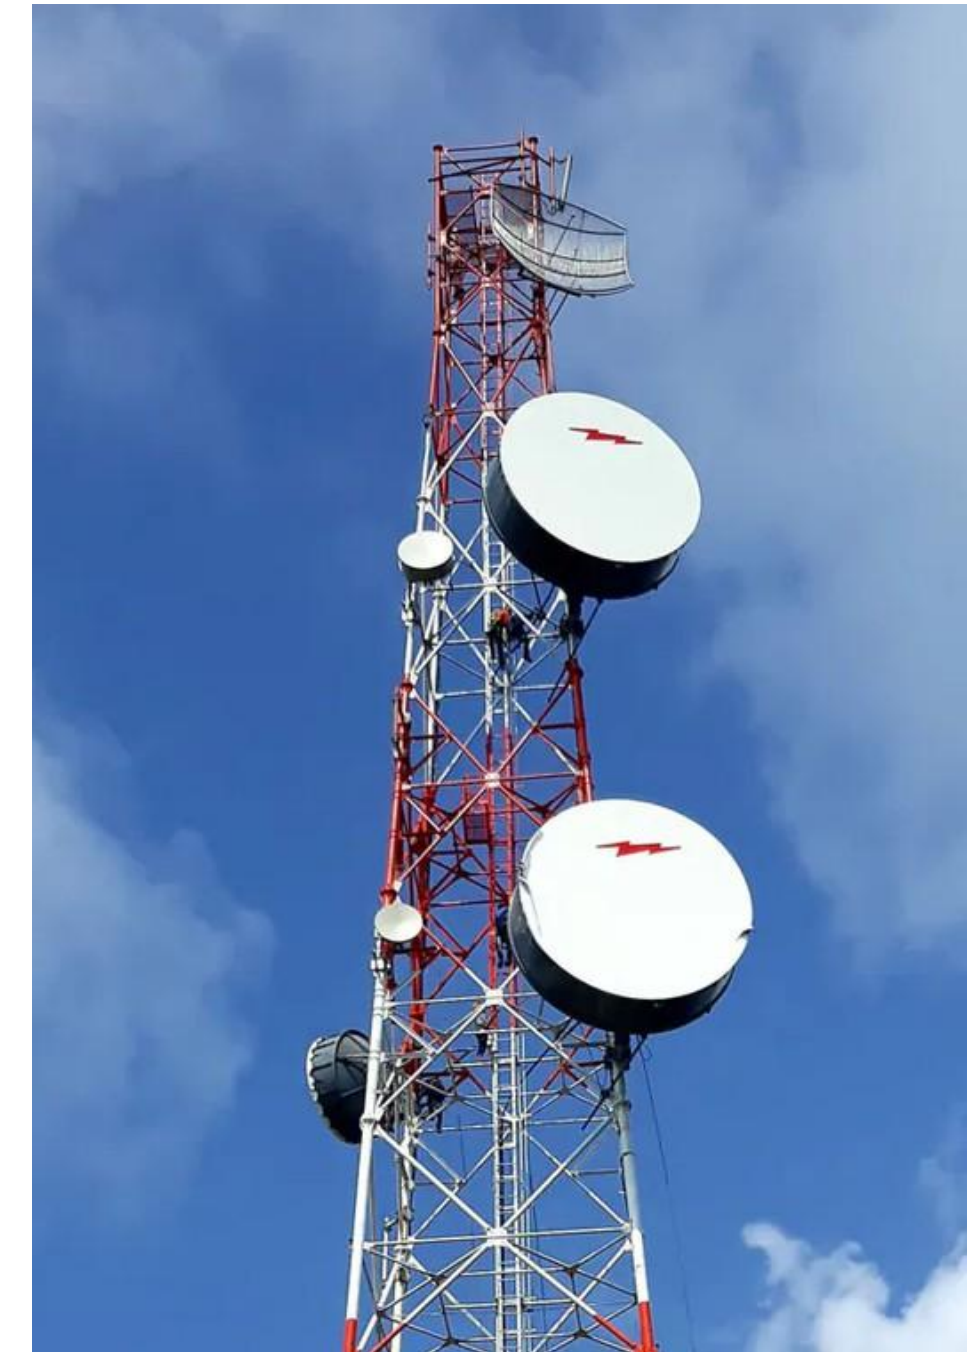

COMPUTER NETWORK SERVICES

Provides information in response to a request. Services include many of the common network applications people use every day, like email hosting services and web hosting services

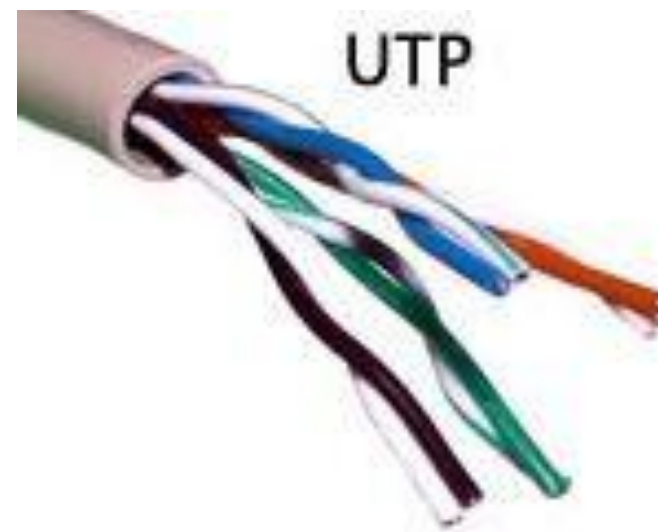

Computer Network Devices

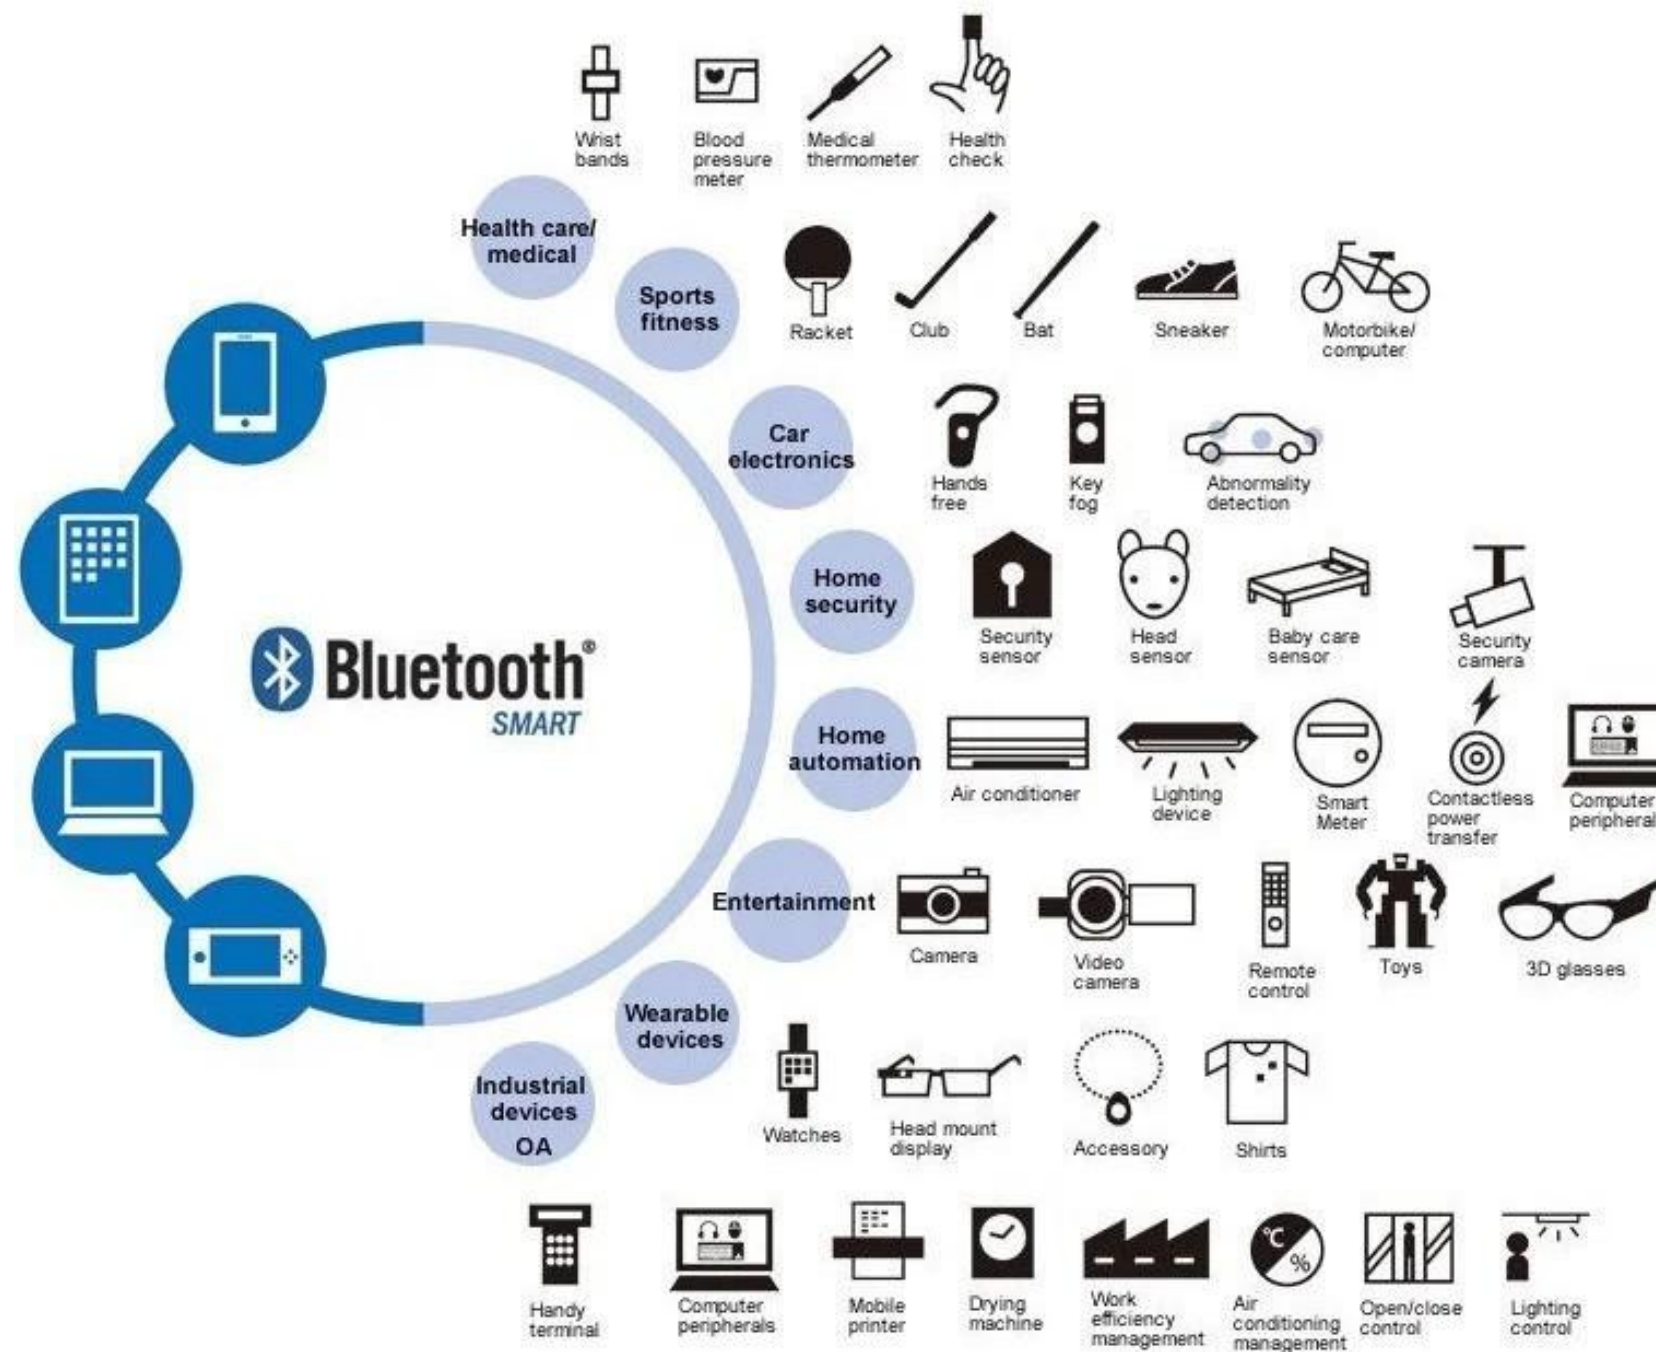

Computer Network Devices

Computer Network Media - WIRED

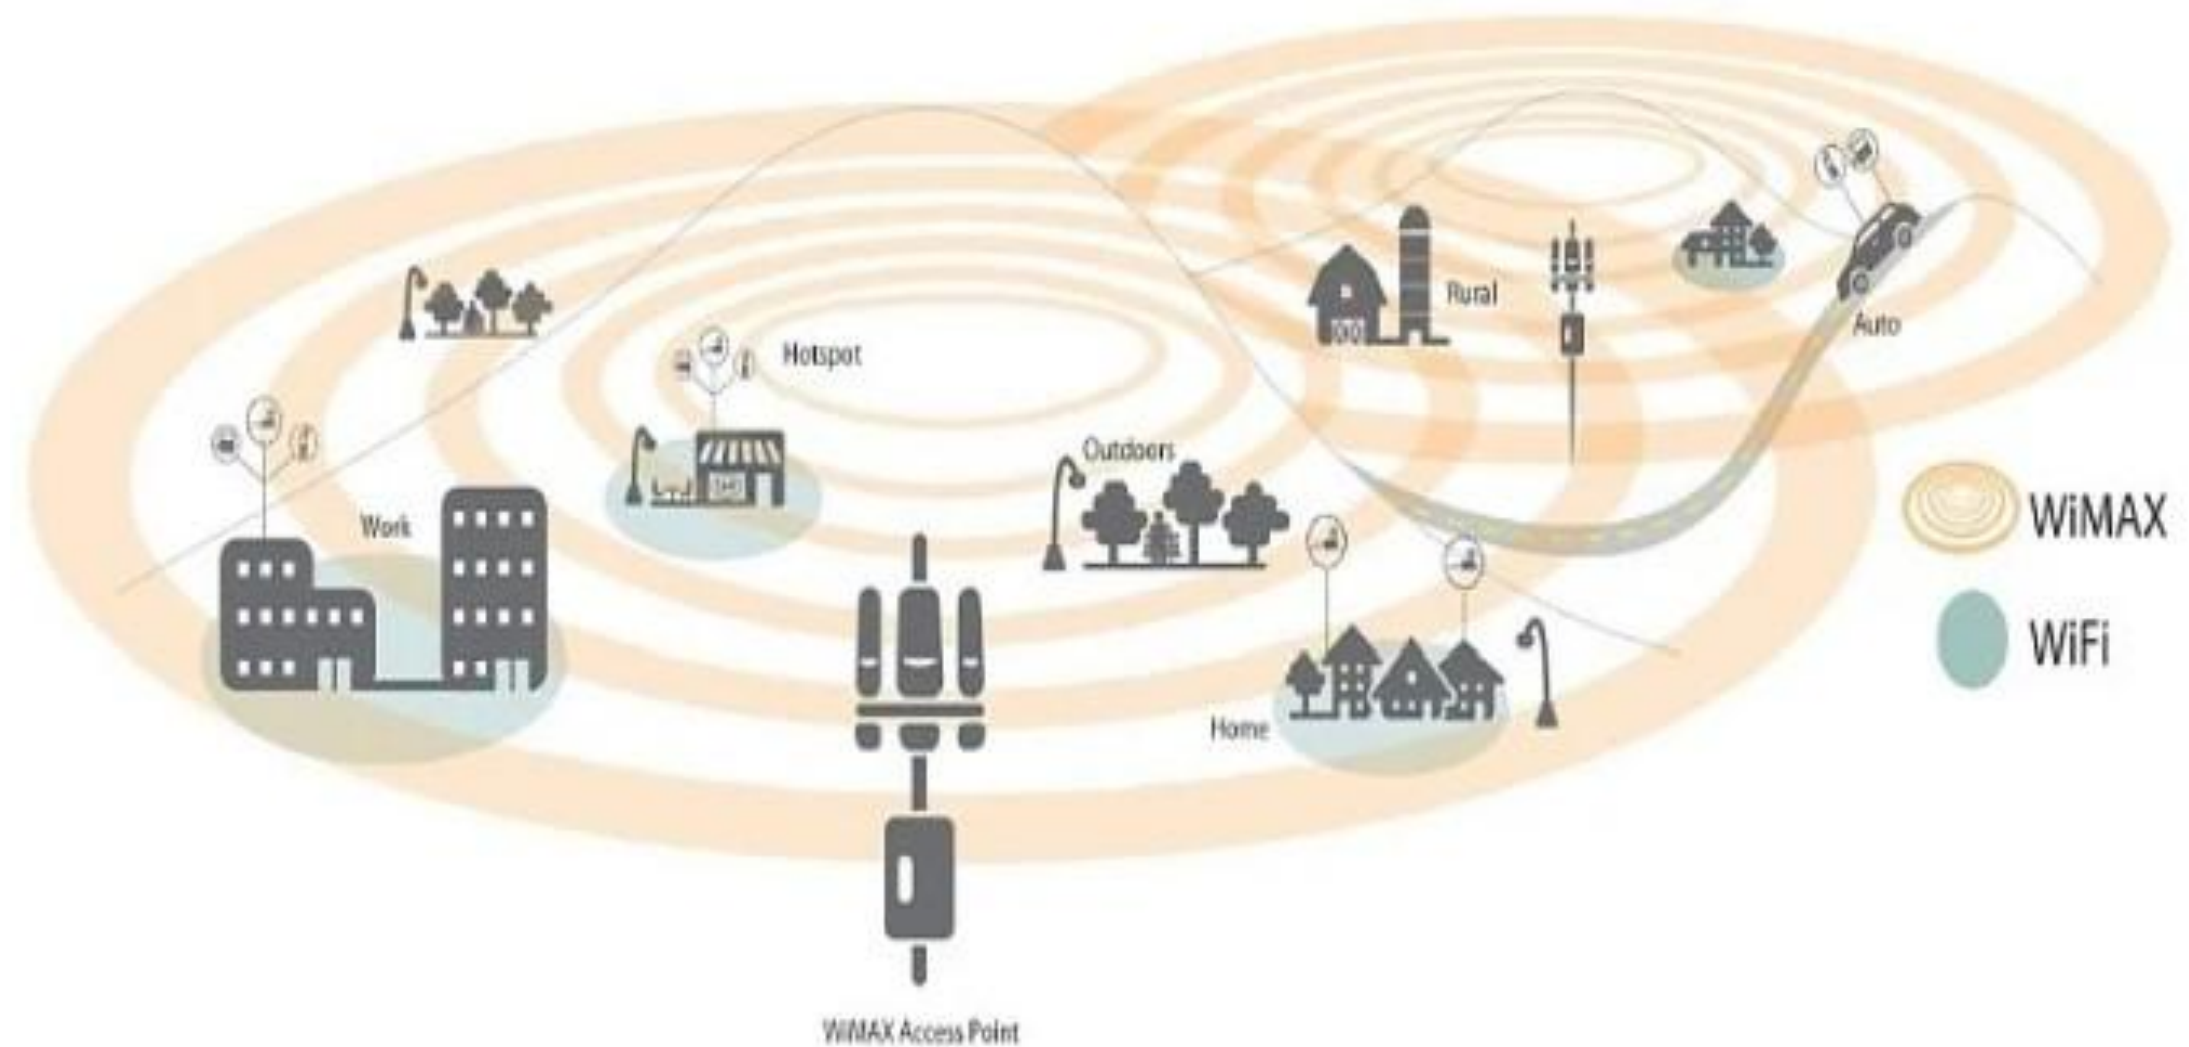

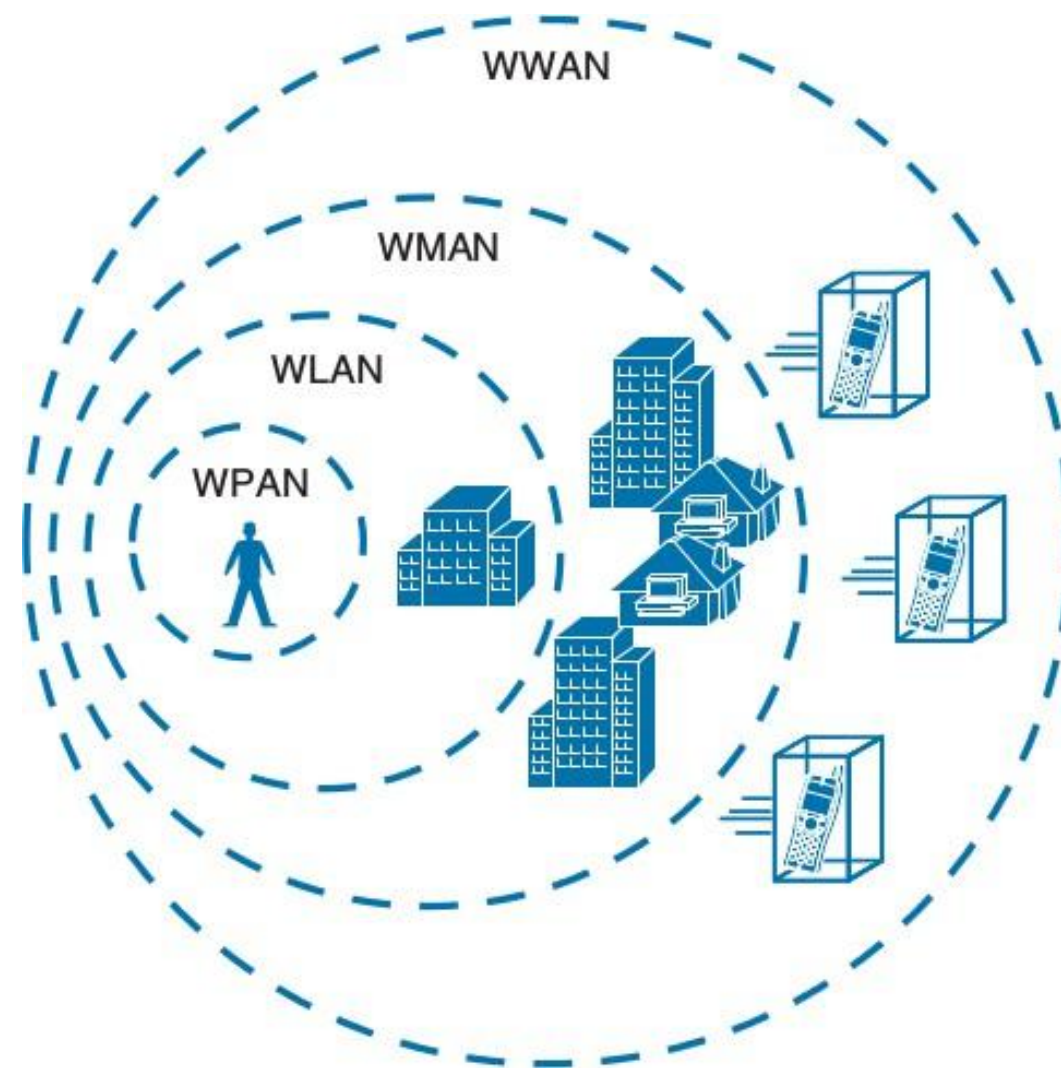

Computer Network Media - WIRELESS

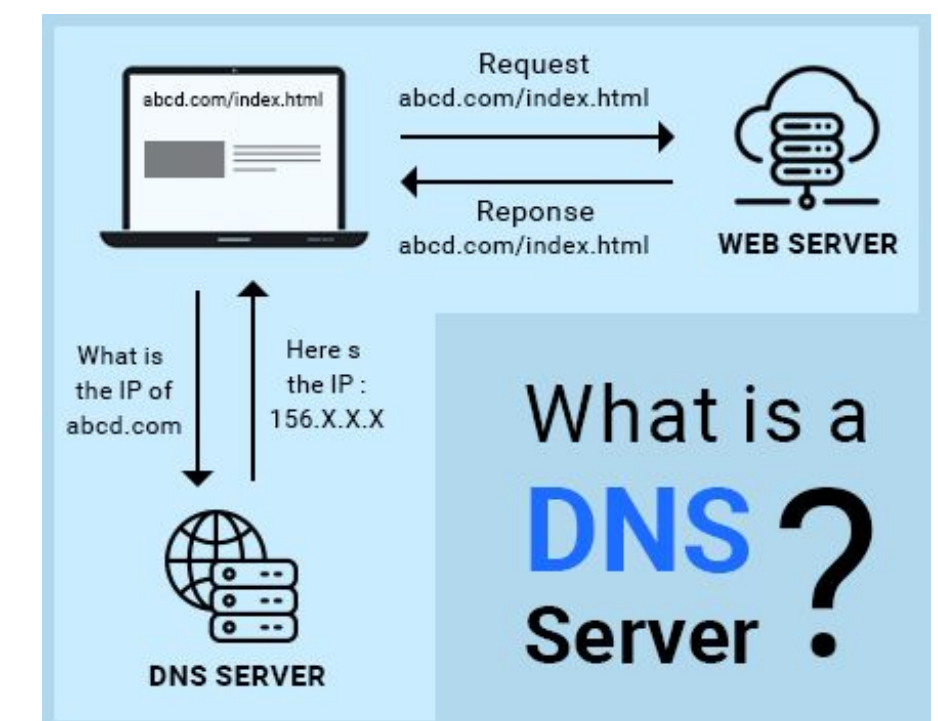

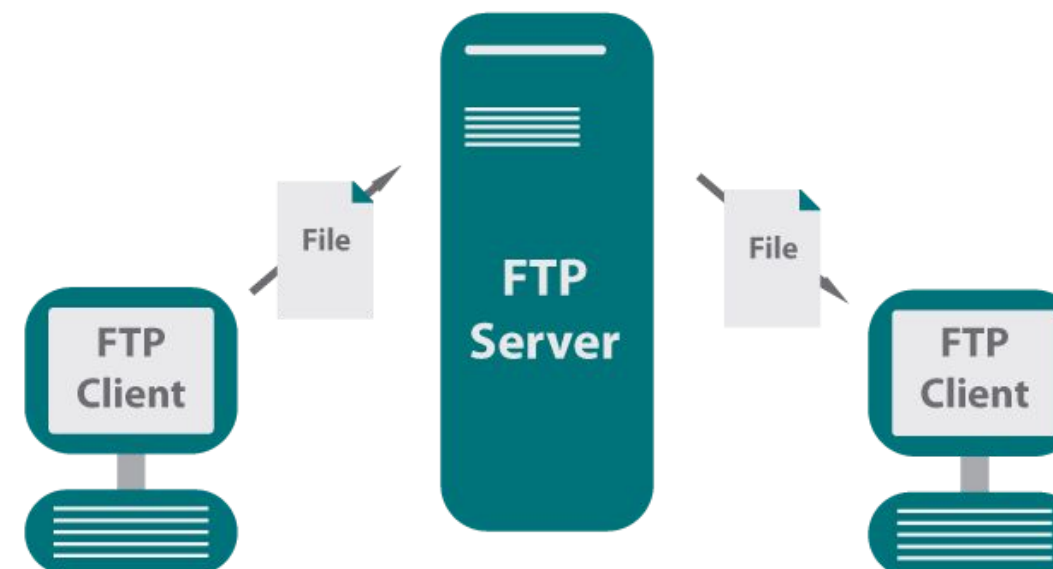

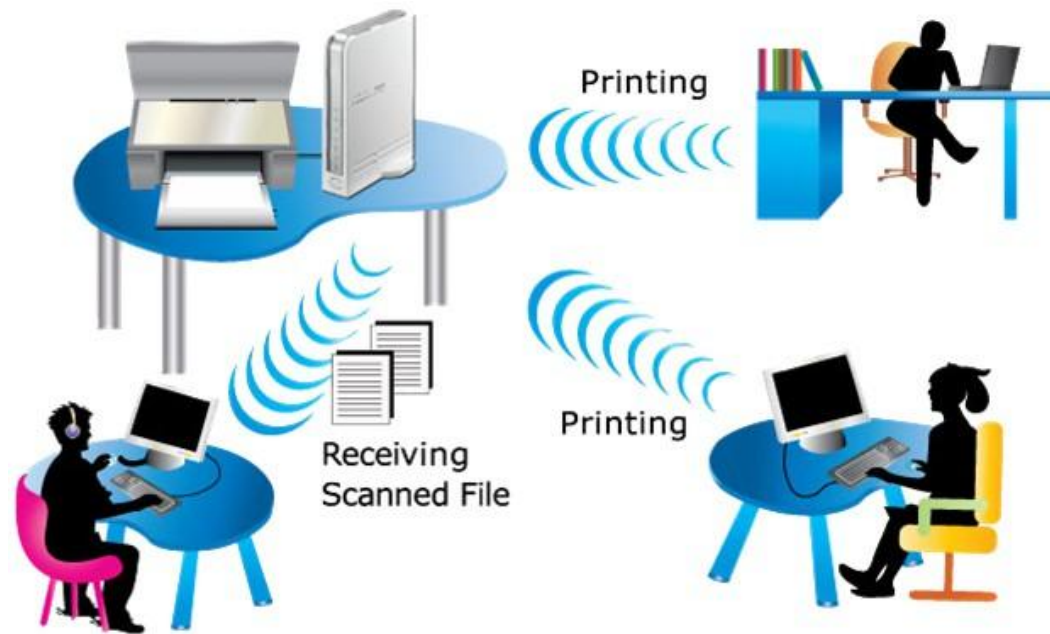

Computer Network Media - **WIRELESS**

WI-FI AND WIMAX

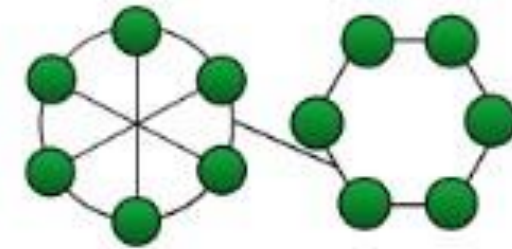

Computer Network Services

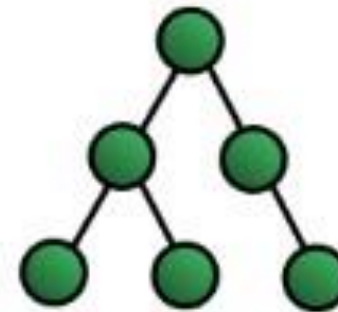

Computer Network Topology

Network topology is used to **describe the physical and logical structure** of a network.

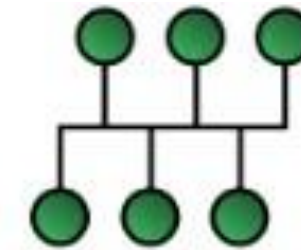

It maps the way different nodes on a network-- including switches and routers--**are placed and interconnected**, as well as how data flows.

HYBRID Topology

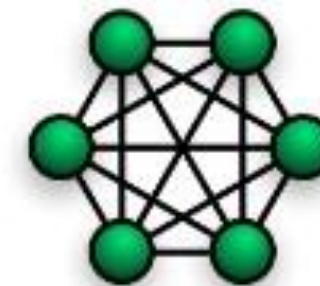

TREE Topology

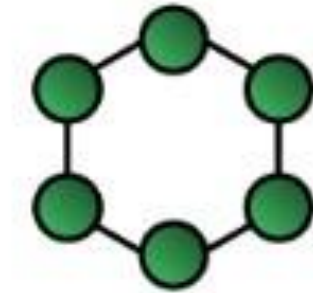

BUS Topology

Network
Topology

MESH Topology

RING Topology

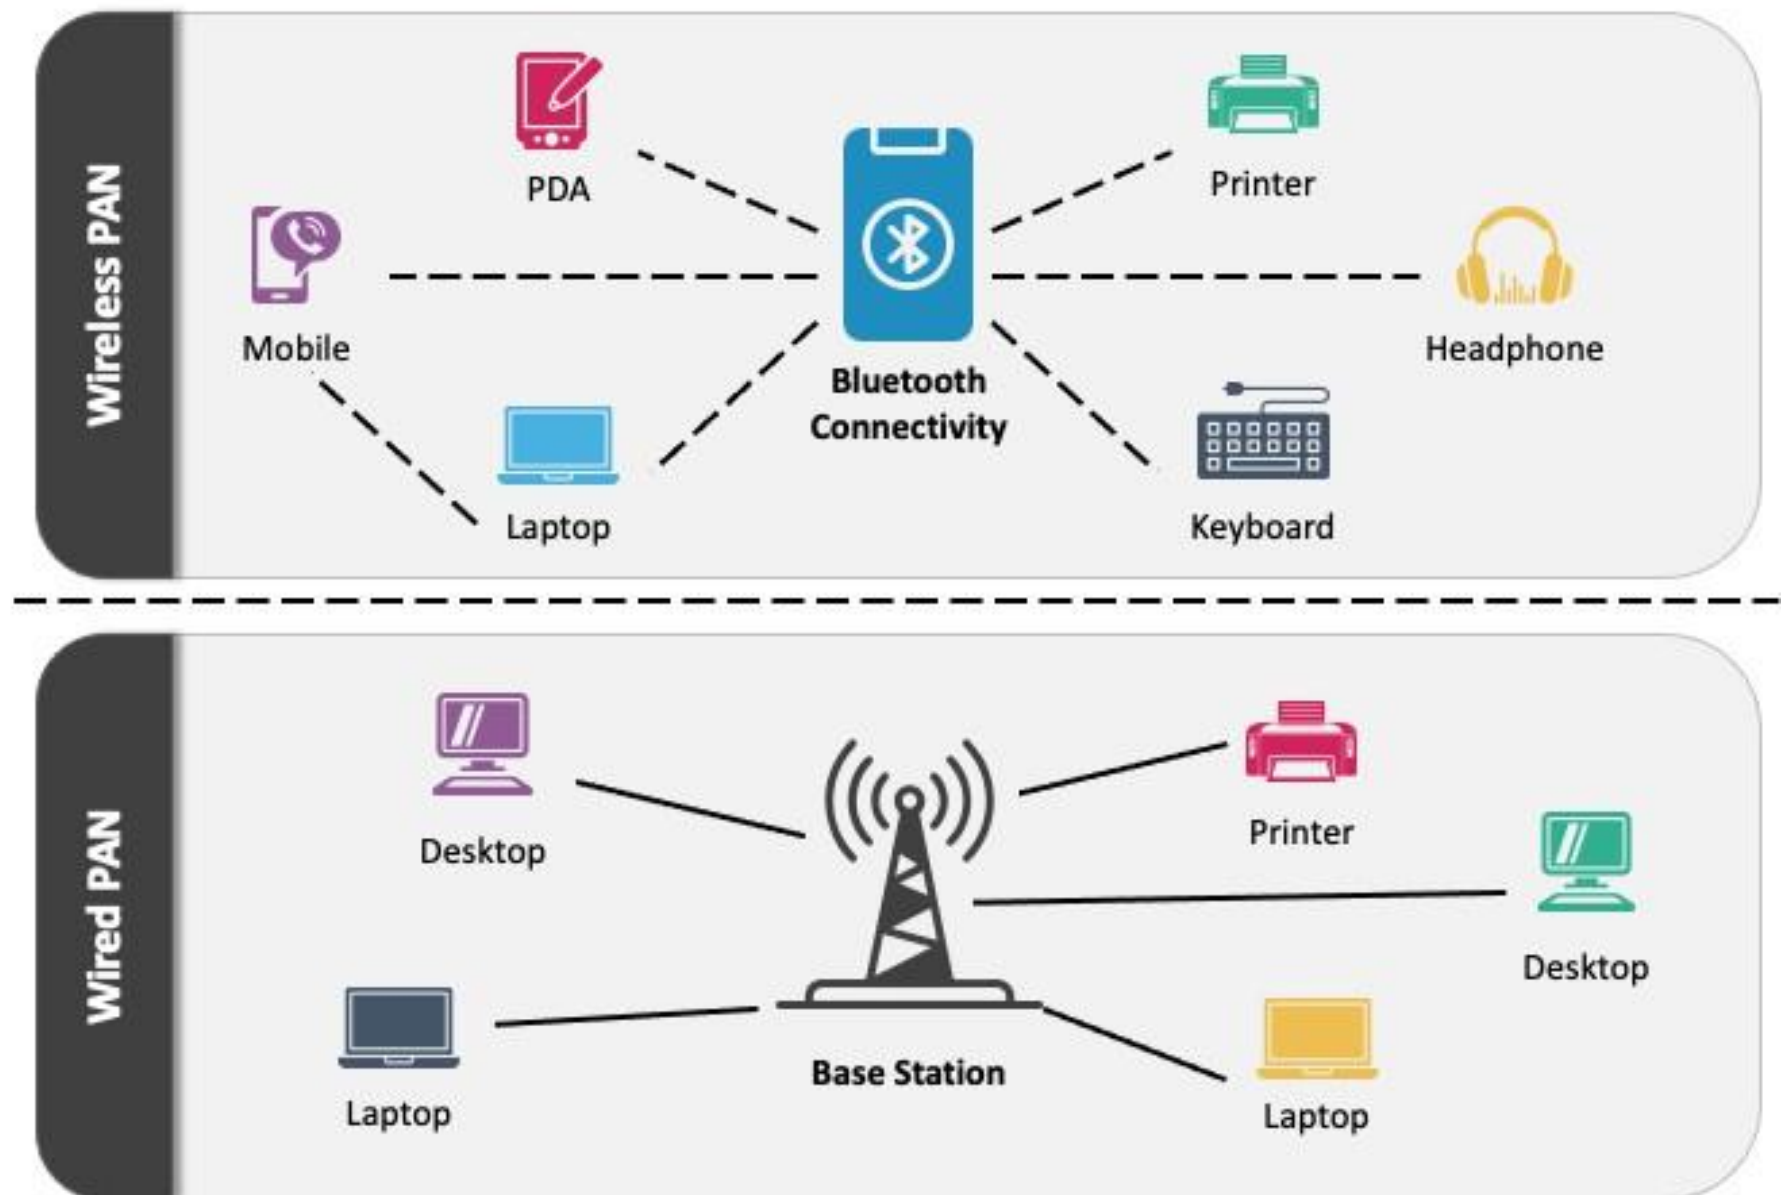

STAR Topology

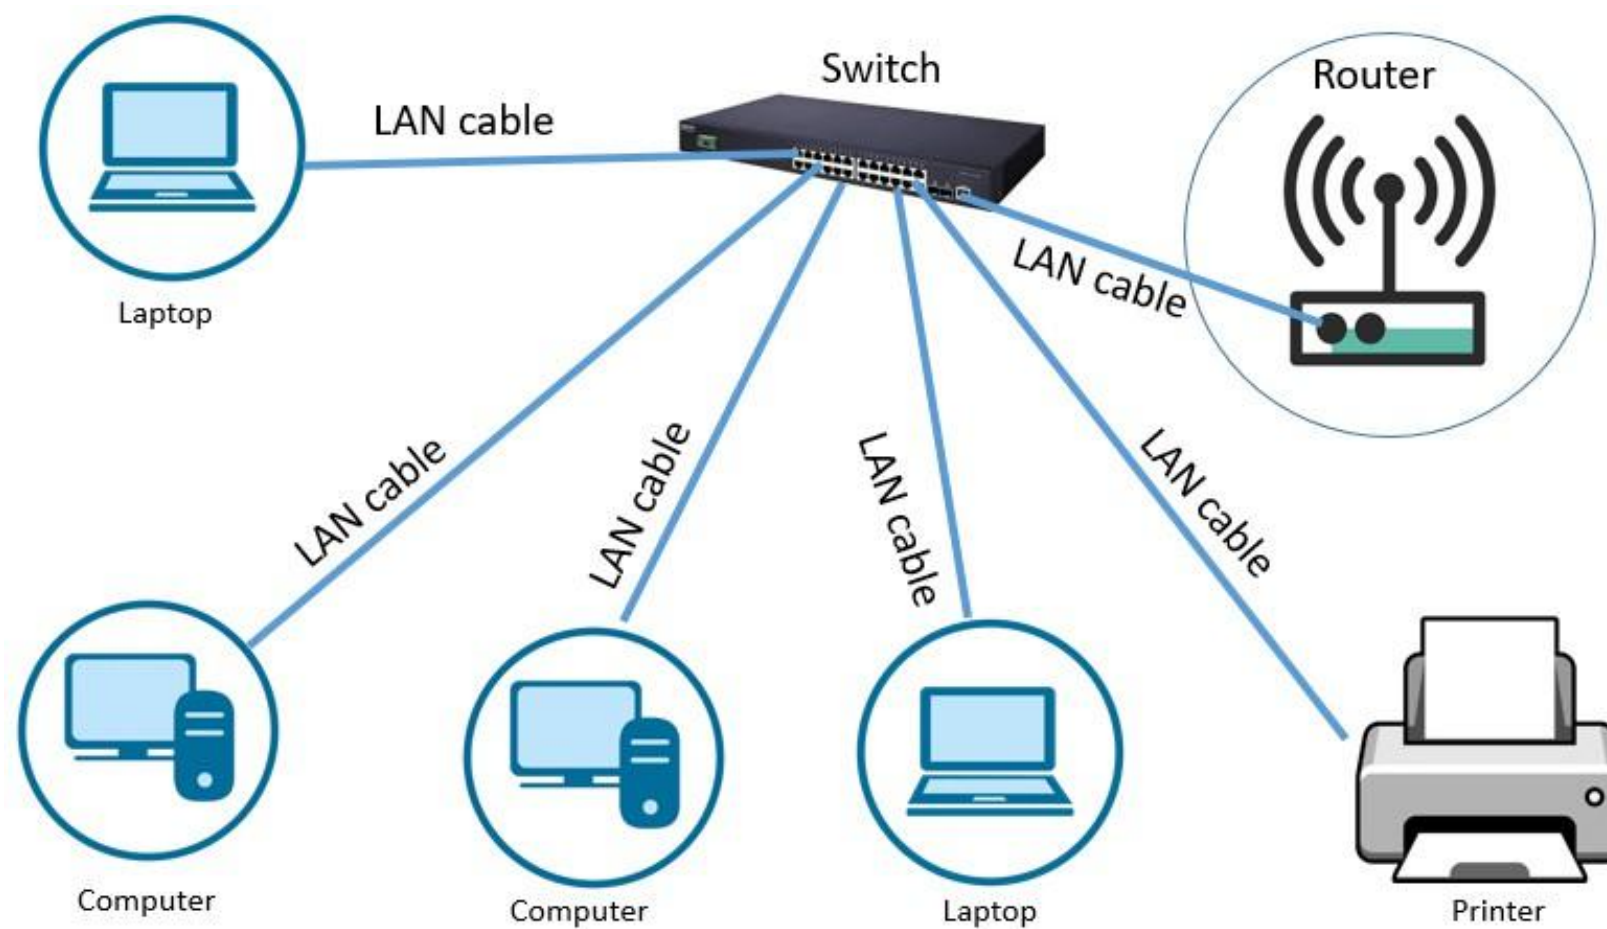

Computer Network Scale

PERSONAL AREA NETWORK (PAN)

Types of PAN Network

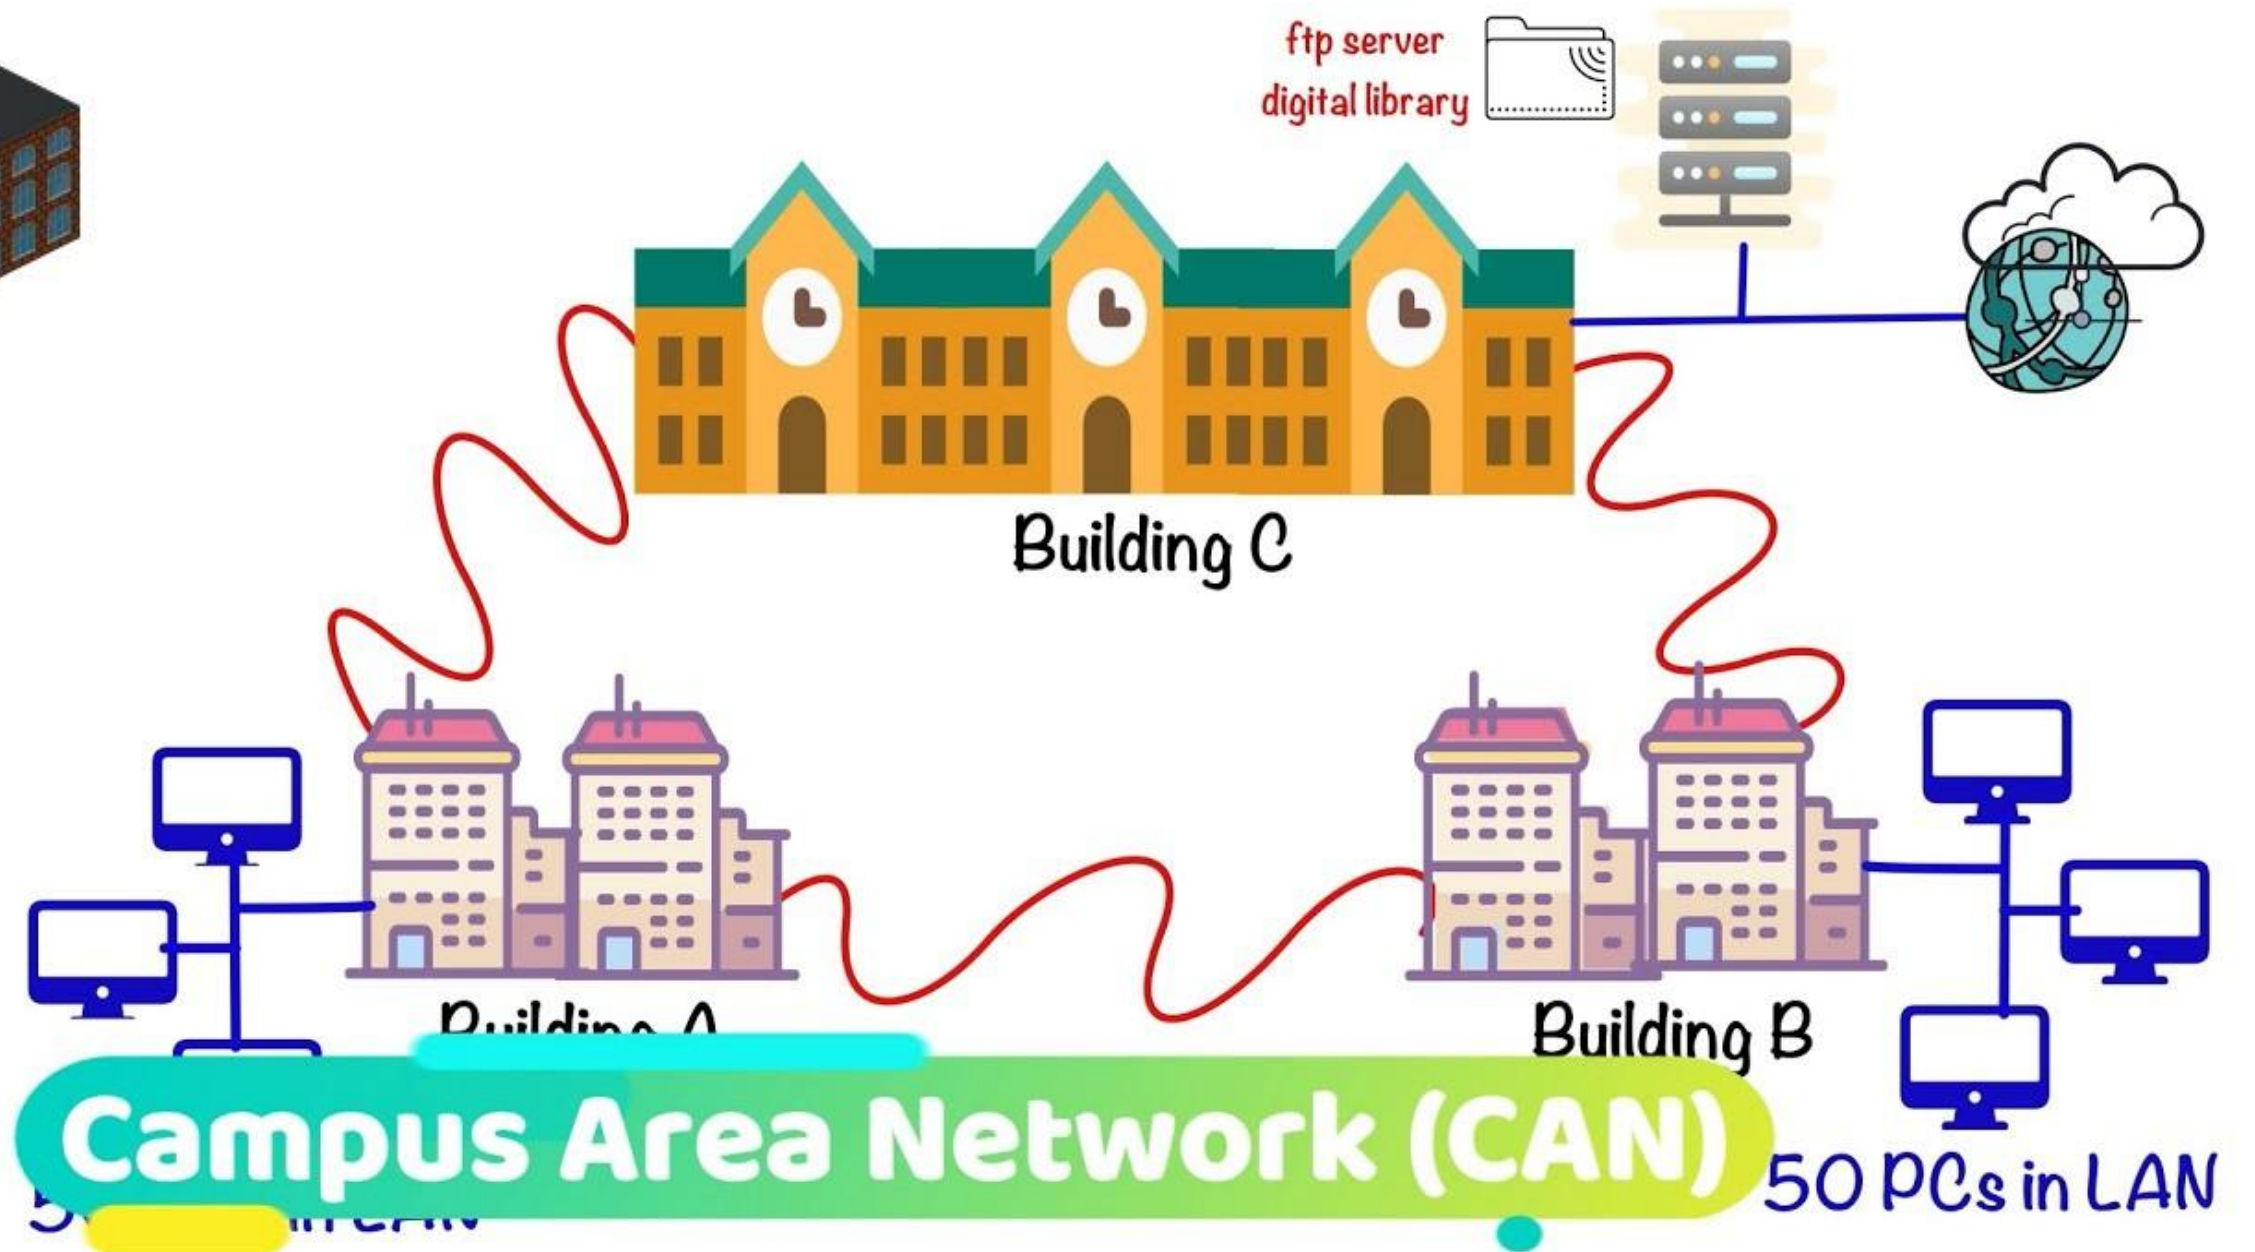

Computer Network Scale

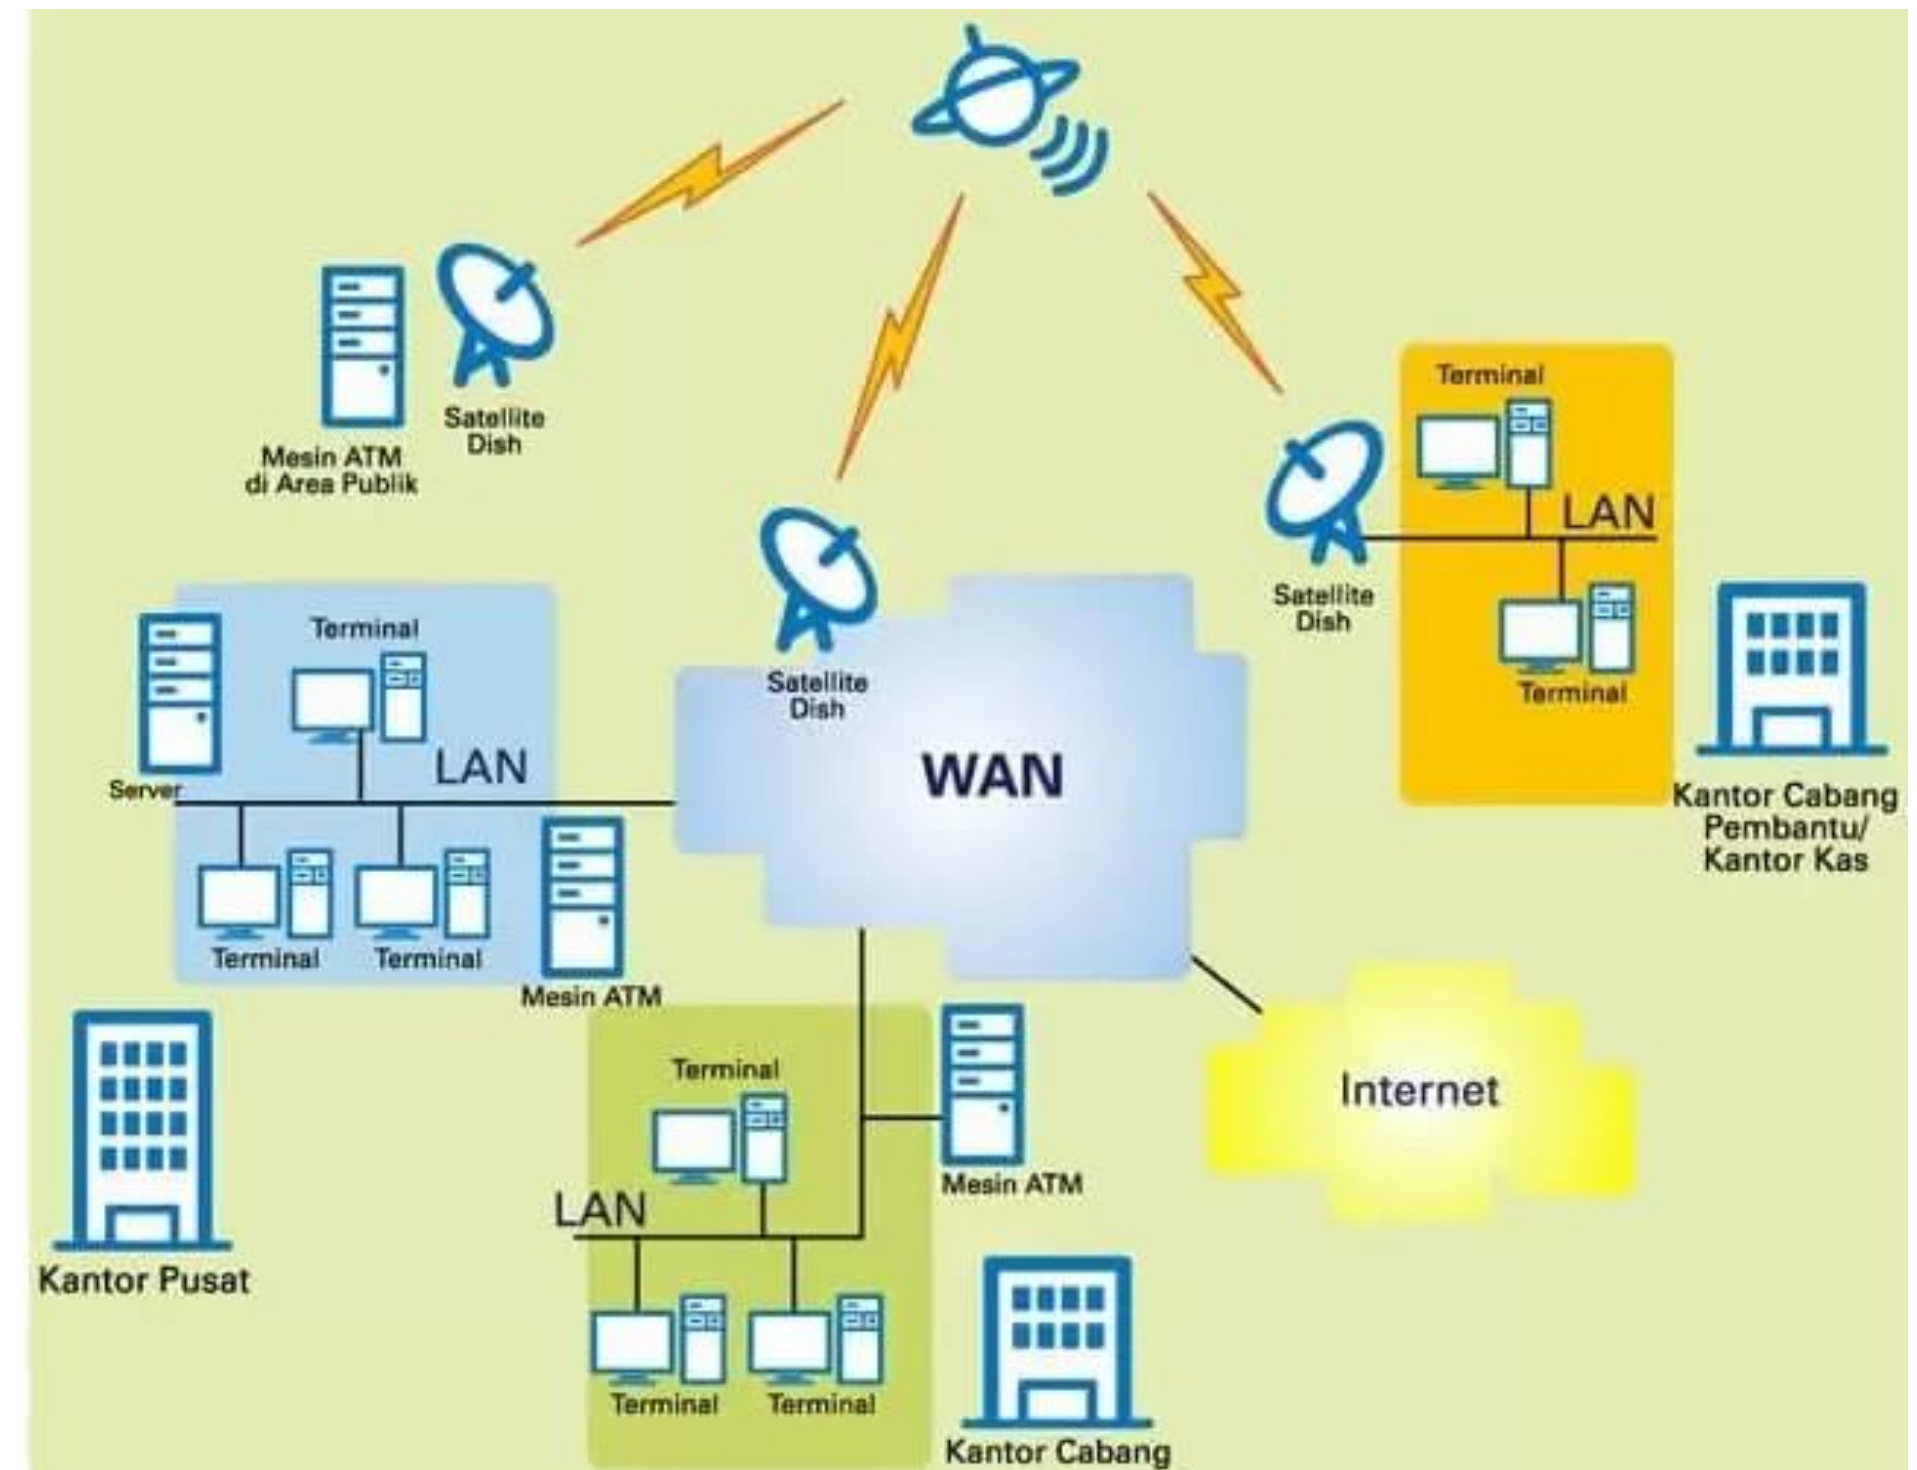

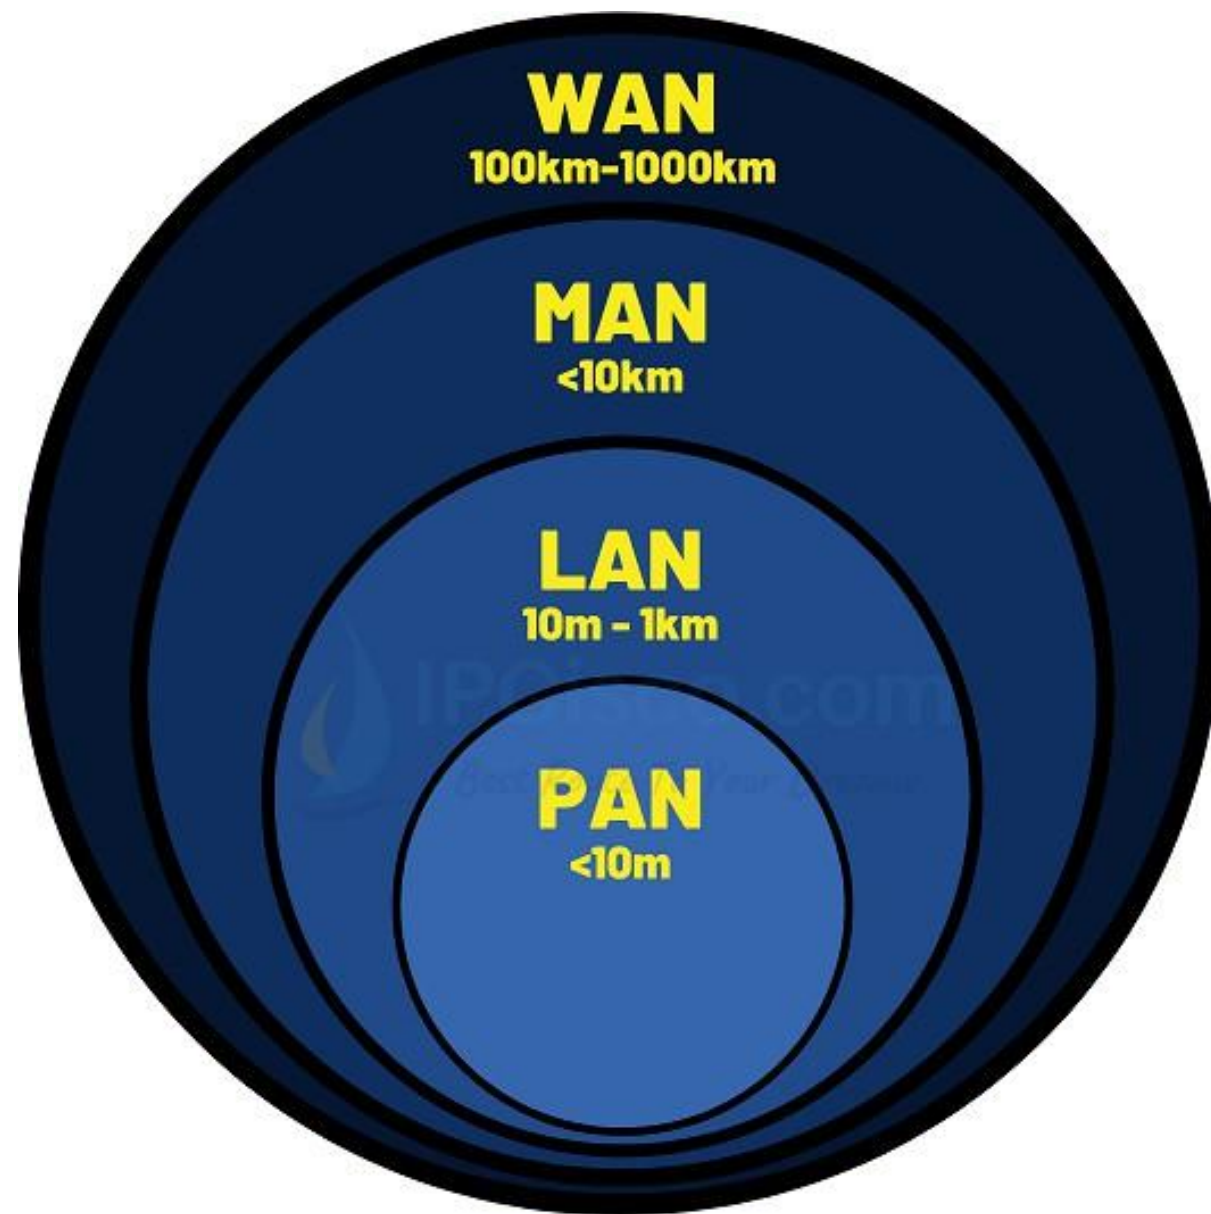

Local Area Network

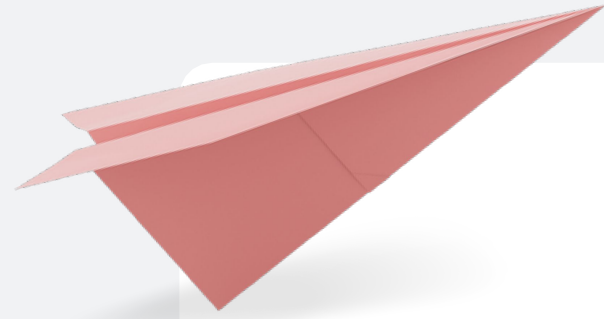

Computer Network Scale

Computer Network Scale

Do you have any **questions?**

Send it to us! We hope you learned something new.
